Enrico De Nicola Palacio

Full Stack Developer /
Economics Degree Student

PROFILE

As a graduate of the Full Stack Web Development Bootcamp and an advanced economics student, I combine my skills in both fields to approach projects from a holistic perspective, considering both the technical aspects and the economic and business impacts. I creatively solve problems and thrive in team environments, quickly adapting to new challenges. My goal is to find the ideal environment to apply my knowledge in both areas in an integrated and effective manner, thereby contributing to the success of assigned projects.

HIGHLIGHTED PROJECTS

- Creation of a website for a service-selling platform using HTML, CSS, and JS.
- Development of a website for displaying collectible cards using React.js.
- Creation of a mobile app for a music player using all frontend and backend tools.
- Github: <https://github.com/edenicola1>

TECHNOLOGIES

- HTML, CSS y Javascript
- React.js
- SQL
- Node.js
- Testing
- Agile Methodologies
